Dear Dr. Thompson:

After-School All-Stars @ Walden allows student to have fun doing cool activities. I also think the program is helpful and educational. ASAS @ Walden is also very exciting and helps me learn things. I also love the program because of all of the teachers and Georgia State University students that come daily to help students.

ASAS @ Walden is the best because we have tutorial groups on Mondays and Wednesdays and interest groups on Tuesdays and Thursdays. On Fridays we have fantastic Fridays when we play games, go outside, watch movies and go on field trips.

The program provides interest group activities like dance, soccer, art and much more. My favorite activity is dance. Dance is my favorite because I like to dance to hip-hop and rap music. Ms. Greene is fabulous dancer and choreographer and Ms. Markum is excellent on Dance, Dance Revolution. My second favorite activity is art club because I always draw in class and at home.

ASAS @ Walden also provides students with the opportunity to participate in great field trips like skating. My favorite field trip is skating. Skating is my favorite field trip because there I can play games, eat, listen to good music and skate.

In all, I love After-School All-Stars @ Walden because I like being around my friends, going on field trips and receiving tutorial assistance from my teachers. I have always needed help with my homework and assistance in my classes and this program provides that.

Sincerely,

Breyosha Wood
