

What All*Star Means To Me?

All Star means to me is a free helping with my education. When I do my work in class or don't understand what the assignment was, I could go to all stars and tell them what I didn't understand and they would sit me in a small group and help me with my work. After that I and I still do not understand they will keep helping me until I understand it.

At certain times I just come here to play instead of doing what I am suppose to be doing. I do not focus when the teacher gives me work to do. I am in somebody else businesses and not minding my own businesses. But I need to understand that All Stars is here for me to get out of the eighth grade and do something with my life.
